- CSS3/HTML5
- Tailwind CSS
- Chakra UI
- Styled Components CSS
- Bootstrap
- Figma
- Stripe/Paypal Payment
- Mapbox GL js
- REST API
- Git/Github/Gitlab
- Click Up/Jira
- Framer Motion

EXPERIENCE

SEMINAUT INC:

FRONTEND WEB DEVELOPER INTERN: JULY 2022-OCTOBER 2022

- Created Live Map page with live event animations that helped the website gain 3x the traffic on the website.
- Implemented search and filter functionality on the map page to help increase the amount of event registrations.
- Created side panel bar for the Map page. The side panel helps users get more information about events/venues and if a user selects an event/venue it will center the map to its location automatically.
- Weekly meetings with design team, front-end management, weekly scrum updates and various smaller teams such as the Map, Badge, and UX/UI teams.
- Good communication and planning with large team using Agile and CI/CD pipelines for development.

SENIOR FRONTEND DEVELOPER: OCTOBER 2022-PRESENT

- Leading a team of interns and delegating task assigned for the live map page.
- Approving merge request weekly from my team.
- Adding new features/components for the live map page to meet user needs with a focus on UI/UX.
- Weekly meetings with executives/seniors on status of the Guild Gaming website and interns.
- Teaching intern's best practices with React.js, CSS/HTML, and version control (git).

FREELANCE WORK:

- Created custom responsive website for a Bouncy House rental company called Ziggy's Inflatables based in Corpus Christi, Tx using React/Next.js and Sanity database.

PROJECTS:

- Full Stack Pizza Delivery Website (React/Next.js, Mongo DB, REST API, Paypal, Redux)
- Full Stack Ecommerce Website (React/Next.js, Sanity (client friendly SQL), Stripe integration)
- Recipe Website (React.js, Styled Components CSS, JavaScript XML, Rest API)
- Live Cryptocurrency charting/Algorithmic Trading Bot (JavaScript, Web Sockets, Node.js)
- IoT Enabled Vibrational Knee Sleeve with Web Dashboard (Dash, CSS3, HTML5, Sensor Fusion, Embedded Systems)

EDUCATION

B.S. ELECTRICAL ENGINEERING, TEXAS A&M UNIVERSITY CORPUS CHRISTI, AUG 2017 - MAY 2022
